

Wednesday, 11 March 2020

0800 - 1830	Registration Open		
0830 - 0945	Pre-Conference Workshop 1: Robotics in Action Arrive: 8:30 Workshop: 9am - 12pm Andrea Meyer-Heim & Jenny Colegate NOTE: Offsite location at Perth Children's Hospital 15 Hospital Ave, Nedlands WA 6009 - Coach transportation available from PCEC	Pre-Conference Workshop 2: Routines Based Coaching Denise Luscombe	Pre-Conference Workshop 3: CRT - CRN hot topics Ros Boyd, Michael Foley, Domenica Ramero, Leanne Sakiewicz
0945 - 1015	Break	Morning Tea	
1015 - 1130	Pre-Conference Workshop 1 (cont offsite)	Pre-Conference Workshop 2 (cont)	Pre-Conference Workshop 3 (cont)
1130 - 1230	Break AusACPDM Committee Meetings Early Career Researcher (ECR) Career Development Workshop		
1230 - 1400	Pre-Conference Workshop 4: Consumer Engagement in Research Anne McKenzie	Pre-Conference Workshop 5: State of the Science in Communication Professor Katie Husad	Pre-Conference Workshop 6: Transitional Care Pathways Jan-Willem Gorter
1230 - 1530	AusACPDM Board Meeting		
1400 - 1430	Afternoon Tea		
1430 - 1530	Pre-Conference Workshop 4 (cont)	Pre-Conference Workshop 5 (cont)	Pre-Conference Workshop 6 (cont)
1530 - 1600	Break		
1600 - 1640	Official Conference Opening: Senator Jordan Steele-John Welcome to Country Welcome and Introduction		
1640 - 1720	Plenary Session 1 Empowered Communication: Language for Families Rachel Gallander, TEDx Presenter, Speaker, Trainer, Artist and Author		
1720 - 1800	Plenary Session 1 Presidential Guest Lecture Professor Nadia Bobrowi AM, Medical Director & Co-Head, Grace Centre for Newborn Care, Westmead Hospital		
1800 - 2000	Welcome Reception & Poster Session: PCEC		
1930	Meet the Keynotes Dinner (tickets for purchase)		

Thursday, 12 March 2020

0730 - 0830	Breakfast 1: Prevention or Salvage? A Clinical Model for the Early Management of Upper Limb Impairment in Children with Cerebral Palsy Brian Hoare, Barry Rawicki, Sabine Henkel, Danni Centavanne	Breakfast 2: International CP Registers: Exploring Rates, Causes and Opportunities for Prevention Sarah McIntyre, Kate Himmelfarn, Gulam Khandaker, Alexandra Sorhage	Breakfast 3: Supporting Parents of Infants Identified as at Risk of Cerebral Palsy Through Parenting and Multifaceted-based Approaches Catherine Mok, Koa Whittingham, Roslyn Boyd	Breakfast 4: Brain Differences in Children with Developmental Coordination Disorder and How Therapy Changes the Brain Jill Zwicker	Breakfast 5: Evidence Based Assessment Practices for Children with Cerebral Palsy: Are we getting it right? Christine Innes, Bridget O'Connor, Nora Sheilds, Janine Stanley	Breakfast 6: The Functional Communication Classification System (FCCS) - Development, Psychometric Testing and Clinical Application Katy Caprice
0830 - 0900	Arrival tea & coffee					
0945 - 0925	Plenary Session 2 Professor Katherine Husad, Professor of Communication Sciences and Disorders, University of Wisconsin					
0925 - 1005	Plenary Session 2: Rationale, Indication and Goal-setting of Novel Rehab-technologies in Children Dr Andrea Meyer-Heim, Chief Medical Officer, Swiss Children's Rehab, University Children's Hospital Zurich					
1005 - 1030	Morning Tea & Poster Session					
1030 - 1200	PAPERS A: Understanding Disability: Infants	PAPERS B: Exercise and Physical Activity	PAPERS C: Mental Health and Quality of Life	PAPERS D: Orthopaedics	PAPERS E: Best Practice in Medical Care	
1030 - 1040	14 Fidgety general movements in infants born extremely preterm/Extremely low birthweight and term: Temporal trends between 12-16 weeks' corrected age Amanda Kwong	42 A randomized controlled trial of functional electrical stimulation powered cycling, goal-directed training and adapted cycling in children with cerebral palsy. Ellen Armstrong	69 The Psychiatry of paediatric movement disorders. Mary-Claire Vaughn	120 Sarcopenia, osteopenia, Botulinum Toxin A and cerebral palsy. Min Jia Tang	20 A systematic review of interventions for the prevention and management of respiratory disease in young people with cerebral palsy. Marie Blackmore	
1040 - 1050	45 The relationships of perinatal variables with the Pechel General Movements Assessment among infants born extremely preterm/Extremely low birthweight Amanda Kwong	83 Can an online exercise prescription tool improve adherence to home exercise programmes in children with cerebral palsy? Rowan Johnson	95 The prevalence and phenotypic signatures of mental ill health across neurogenetic disorders associated with intellectual disability: A systematic review. Nicholas Buckley	158 Acetabular shape and orientation in patients with spastic hip disease: A three-dimensional computed tomographic study. Marek Józwiak	22 Clinical care pathways to prevent and treat respiratory illness in children with cerebral palsy: Best evidence to best practice. Nicola Gibson	
1050 - 1100	176 Early general movements are associated with motor skills and mobility at 4.5 years' corrected age in very preterm infants. Jay Olsen	182 SPORTS STARS: A practitioner-led, sports group improves sports activity capacity in ambulant children with cerebral palsy. Georgina Clutterbuck	208 Can Trauma Informed Principles be used as a framework to optimise behaviour support for children with Prader-Willi syndrome? Cara Schofield	30 Allogeneic RBC transfusion following traditional fusion versus a minimally-invasive growth-friendly technique for the treatment of neuromuscular scoliosis. Kristopher Lundie	229 The value of gastrostomy to families of children with severe disability. Emma Glasson	
1100 - 1110	168 Quantification of movement to predict infants at high risk of neurodevelopmental disorders: A systematic review. Christian Reid	183 SPORTS STARS: Parents and physiotherapists prefer a practitioner-led sports group to improve sports-specific goals for ambulant children with cerebral palsy. Georgina Clutterbuck	242 Parenting acceptance and commitment therapy (PACT): initial findings from an RCT for parents of children with cerebral palsy (CP). Koa Whittingham	114 Intensive, sub-acute physiotherapy improves functional mobility following orthopaedic surgery in children with cerebral palsy. Sophia Gribbin	67 Does gastrostomy improve the health of children with severe intellectual disability? Conny Douvis	
1110 - 1120	209 Strength, motor competence and physical activity in very preterm and term-born preschool age children. Alicia Spittle	191 Two-wheel bike skills training for children with cerebral palsy: a randomised controlled trial. Rachel Toovey	76 Comparison of quality of life and health related quality of life measures in children with autism spectrum disorder and intellectual disability. Amy Epstein	254 Lower leg muscle growth and quality in children with unilateral and bilateral cerebral palsy age 4 months - 11 years. Lee Barber	277 Improving epilepsy control among children with Cerebral Palsy in rural Bangladesh. Tasveem Karim	
1120 - 1130	125 Profile of early development in children with developmental coordination disorder. Jill Zwicker	208 Participation in sports programs amongst adolescents with cerebral palsy: The role of video education. Olivia Lee	47 Efficacy of psychological interventions for mothers of children with Autism Spectrum Disorder in improving the mother-child relationship and mental health. Kavindi Kulasinghe	132 Intramuscular fat in children with unilateral cerebral palsy. Akihiro D'Souza	137 Implementing the congenital orthopaedics evidence based practice guidelines. Nayley Smithers-Sheedy	
1130 - 1140	120 Early Feeding Problems Predict Poor Motor Outcomes in Preterm Infants. Jill Zwicker	270 How do physical activity interventions improve participation for children with cerebral palsy: a systematic review. Garlo Kilgour	256 Goal-directed therapy improves clinical outcomes and quality of life in children with cerebral palsy: a randomized controlled trial. Suwanika Palae	250 Macroscopic morphological muscle properties to feature spasticity phenotypes in children with cerebral palsy. Anja Van Campenhout	102 Profile of hospital admissions for adults with cerebral palsy: A cohort study. Prue Morgan	
1140 - 1150	Late Breaking Abstract TBC	183 High intensity interval training in an aquatic environment does not increase pain in adolescents with cerebral palsy. Annalee Smith	257 Parent reported executive function, behaviour, and autism symptomatology in primary school-aged children with cerebral palsy. Jane Waterspooon	70 Cortical thickness of primary visual cortex correlates with motion deficits in periventricular leukomalacia. Maria Concetta Morrone	59 Challenges and opportunities during healthcare transition of young people for Botulinum Toxin services in New South Wales. Nadine Paget	

1200 - 1300 Lunch - International Affairs Lunch

1310-1320 Lifetime Awards 13.10 - 1320 to 13.50 & CP Strategy Program

1350 - 1420	Plenary Session 3: Dinah Reddihough Oration Professor Roslyn Boyd, Professor of Cerebral Palsy Research, University of Queensland				
1420 - 1535	PAPERS F: Advances in Brain Imaging	PAPERS G: Diagnosis of Cerebral Palsy	PAPERS H: Health Care and Community Services	PAPERS I: Vision and Sensory	PAPERS J: Latest in Complex Care
1420 - 1430	66 Fetal-based morphometry reveals associations between brain micro- and macrostructure of preterm infants at term and neurodevelopmental outcomes at 2 years Roslyn Boyd	17 Comparison of cerebral palsy diagnoses between the Australian Cerebral Palsy Register and a large clinical trial. Emily Shepherd	106 The intersection of developmental vulnerability and socioeconomic disadvantage on health care access for preschool aged children: The inverse care law. Sue Woolfenden	165 Measure of Early Vision Use (MEVU): A new tool for assessing how vision is used by children with cerebral palsy. Belinda DeMarco Denver	50 The Australian Selective Dorsal Rhizotomy Registry - characteristics of children with cerebral palsy who have selective dorsal rhizotomy. Simon Paget
1430 - 1440	160 Quantitative structural and diffusion MRI measures for automated clinical reporting in early preterm and term-equivalent MRI. Roslyn Boyd	177 Age of diagnosis, early neurological and motor development of cerebral palsy in a new early diagnosis clinic - a case series. Anna Mackley	271 Community services accessed in first five years for children with cerebral palsy. Anna Mackley	164 Typically developing children aged 0-24 months performance on the Measure of Early Vision Use. Hannah Goman	60 Australian Selective Dorsal Rhizotomy Registry - goal attainment of children with cerebral palsy following selective dorsal rhizotomy performed in Australia. Jennifer Lewis
1440 - 1450	161 Validating automatic segmentation of deep gray matter white matter structures in MRI of preterm infants at early and term-equivalent age. Roslyn Boyd	181 A delayed diagnosis? Preliminary findings of clinician practice and family experience of diagnosis of cerebral palsy in New Zealand. San Williams	249 It's only therapy if it's difficult. Supporting parents with therapy home programmes. Mindy Silvo	70 Cortical thickness of primary visual cortex correlates with motion deficits in periventricular leukomalacia. Maria Concetta Morrone	171 Australian Selective Dorsal Rhizotomy Registry: Functional, gait and mobility changes in children with cerebral palsy following SDR in Australia. Olivia Lee
1450 - 1500	206 Relationship between neonatal MRI, clinical assessment scores and 2-year neurodevelopmental outcomes in very preterm born infants. Joanne George	170 The pooled diagnostic accuracy of three tests for diagnosing cerebral palsy early in high risk infants: a case control study. Catherine Morgan	107 Play based interdisciplinary therapy for pre-school aged children with cerebral palsy addresses activity and participation goals. Dayna Pool	74 Eyes on Communication. Clinical practice guidelines for eye-gaze control technology for people with cerebral palsy: A Delphi study. Petra Karlsson	69 News media representation of selective dorsal rhizotomy for children with cerebral palsy. Simon Paget
1500 - 1510	261 Comparison of the predictive potential of GA and brain MRI for early prediction of motor outcome in preterm infants using AL. Sumitro Sahu	224 Understanding parents experiences of their infant's diagnosis of risk of cerebral palsy and health professionals' perspectives. Catherine Mak	58 Does the doctor know best? Who is the expert? Paediatric clinicians' experiences of the influence of online health information seeking. Lily Shervilington	146 Improving functional communication skills for children with cerebral palsy. Johanna Kotalainen	28 Intrauterine baclofen therapy: Impact on quality of life and caregiver burden in a paediatric cohort. Kirsty Stewart
1510-1520	247 Development of a neuroimaging-informed classification of aetiological pathways for cerebral palsy. Sue Reid	93 Mothers' perspectives on the influences shaping their early experiences with infants at risk of cerebral palsy in West Bengal, India. Natoya Branjardorn	Late Breaking Abstract TBC	Late Breaking Abstract TBC	Late Breaking Abstract TBC

1535 - 1600 Afternoon Tea & Poster Session

1600 - 1730	Workshop 1: Cerebral visual impairment in children with cerebral palsy: from evidence to best practice Alison Solt, Andrea Guazzetta, Swetha Philip	Workshop 2: Positive Language in Healthcare Rachel Gallander, TEDx Presenter, Speaker, Trainer, Artist and Author	Workshop 3: Exercise for EveryBODY: the what, how & who of exercise prescription in neurodevelopmental medicine. Sobhan Reid, San Williams, Cate Willis, Gaj Panagodu, Astrid Nyquist, Jan Willem Gorter	Workshop 4: Management of Spinal Deformity in Cerebral Palsy - Surveillance, Guidelines, and Innovations in Surgical Treatment Giuliano Antolovich, Kirsty Stewart, Michael Johnson, Kerr Graham	Workshop 5: Live Traffic Report: State of the Prevention and Intervention Evidence for Children with Cerebral Palsy Iona Nouri, Megan Finch-Evenden, Ashleigh Jones, Maria McNamara, Madison Paton, Emma Stanton	Workshop 6: Enabling Participation in Activities of Daily Living: Supporting Non-ambulant Children with Cerebral Palsy to be Involved in Daily Routines. Robyn Heesh, Christine Innes	Workshop 7: The Baby and the Bathwater: Response to Recent Concerns for Safety and Use of Botulinum Toxin A Lisa Copeland, Mary-Claire Vaughn, Stephen O'Flaherty
1730 - 1830	Early Career Researcher (ECR): Establishing Peer-support Networks, and ECR Networking Event						
1730	Free evening						

Friday, 13 March 2020

0730 - 0830	<b>Breakfast 7: Being Visionary, a Masterclass in Vision Assessment</b> <i>Alison See</i>	<b>Breakfast 8: Enhancing the Health of Adults with Cerebral Palsy after Transition from Paediatric Services</b> <i>Pru Morgan, Carlee Holmes, Jane Tracy</i>	<b>Breakfast 9: "We need to talk about Beethoven Taster"</b> <i>Tandy Hastings-Iron, Jason Howard, Abby Knot, Kerri Graham</i>	<b>Breakfast 10: So, Do We Really Need Doctors Anyway? Decision Making in Paediatric Clinical Practice - Who is the Expert?</b> <i>Giuliana Antolovich</i>	<b>Breakfast 11: Supporting Communication Access for the People with Cerebral Palsy and Other Disabilities Attending Clinical and Research Settings</b> <i>Betty-Jean Dee Price</i>	<b>Breakfast 12: Active Ingredients of Rehabilitation and Unmasking the Black Box of Participation-focused Therapy for Children with Cerebral Palsy</b> <i>Ros Boyd, Leanne Sakzewski</i>
<b>0830 - 0830 Arrival tea &amp; coffee</b>						
<b>0830 - 0910 Plenary Session 4</b> <i>Aime McKenna, Community Engagement Manager, Telethon Kids Institute</i>						
<b>0910 - 0950 Plenary Session 4</b> <i>Professor Jan-Willem Gorter, Director &amp; Scientist, ConChild Centre for Childhood Disability Research</i>						
<b>0950 - 1010 Award Presentations - Local Hero &amp; Person with Lived Experience</b>						
<b>1010 - 1040 Morning Tea + Poster Session</b>						
1040 - 1210	<b>PAPERS K: Understanding Disability: Epidemiology</b>	<b>PAPERS L: Best Practice - Upper Limb and Dyskinetic Cerebral Palsy</b>	<b>PAPERS M: Participation &amp; Social Wellbeing</b>	<b>PAPERS N: Mobility and Locomotion</b>	<b>PAPERS O: High Risk Infants and Early Intervention</b>	
1040 - 1050	148 A birds-eye view of the landscape of cerebral palsy for Aboriginal and Torres Strait Islander children in Australia. <i>Tan Martin</i>	75 Dose of practice: how much do children with CP need to improve upper limb function? <i>Michelle Jackson</i>	40 Predictors of community participation in preschool age children born very preterm. <i>Kate Cameron</i>	32 The intra and inter-rater reliability of the Goldsmith Indices of Body Symmetry in non-ambulant adults with cerebral palsy. <i>Carlee Holmes</i>	174 Major congenital anomalies are common in children with cerebral palsy: The Comprehensive CA-CP Study. <i>Shona Goldsmith</i>	
1050 - 1100	263 Survival of individuals with cerebral palsy born in Victoria, Australia, between 1970 and 2011. <i>Sue Reid</i>	134 Test-retest and inter-rater reliability of the Neurological Hand Deformity Classification. <i>Simon Gorbellini</i>	48 Intrinsic motivation for physical activity predicts change in response to participation-focused therapy in children with cerebral palsy. <i>Sarah Reardon</i>	293 Kids-BEST of postural control predicts gross motor coordination in primary school children with and without coordination difficulties. <i>Leanne Johnston</i>	255 Should high-risk infants with atypical motor development in the first year of life be referred for early intervention? <i>Emma Flynn</i>	
1100 - 1110	105 Temporal trends, demographic risk factors and causes of postneonatally acquired cerebral palsy in Australia 1995-2012. <i>Emma Wright</i>	91 Effectiveness of wrist-hand orthoses in children with cerebral palsy: A randomised controlled trial. <i>Christine Imms</i>	119 Evaluating an innovative performing arts project for teens with multiple support needs within a quality of life framework. <i>Nicola Murphy</i>	250 COPM and GAS goal attainment in children and adolescents with cerebral palsy undergoing lower limb orthopaedic surgery. <i>Sarah Weil</i>	54 Motor outcomes of children following early major cardiac and non-cardiac surgery. <i>Natalie Fairbairn</i>	
1110 - 1120	112 Pre/perinatally acquired cerebral palsy amongst singleton born children (1995-2012): Findings from the Australian Cerebral Palsy Register. <i>Linda Watson</i>	81 Self-care in children with cerebral palsy aged 1.5 to 12 years, and its relationship to manual ability: A longitudinal study. <i>Andrea Burgess</i>	88 Modifiable child and caregiver factors that predict community participation in children with Down syndrome. <i>Nora Shields</i>	110 The feasibility of intensive locomotor training: the consumer perspective. <i>Dayna Pool</i>	64 HINE scores at 3-5 months of age in infants with congenital anomalies requiring neonatal surgery. <i>Cathryn Crowle</i>	
1120 - 1130	262 Declining rates of cerebral palsy in preterm infants in WA - what's behind the data? <i>Mary Sharp</i>	56 Cognitive strategy use in children with unilateral cerebral palsy. <i>Kelsey Jamieson</i>	118 The Friends Project: Optimising social competency in youth with acquired brain injuries and cerebral palsy: A randomised controlled trial. <i>Rose Gilmore</i>	109 Locomotor training in children with cerebral palsy: Is Functional Electrical Stimulation integrated robotic training effective? A randomised controlled trial. <i>Dayna Pool</i>	190 Parent-report tools are not a reliable access pathway to early intervention for high risk infants. <i>Marcelle Danis</i>	
1130 - 1140	165 Epidemiology of cerebral palsy (CP) in low and middle-income countries (LMICs) - Findings from an international multi-centre CP-Registry in LMICs. <i>Israt Jahan</i>	227 The Dyskinesia Functional Impact Scale (DFIS): Development and psychometric testing of a new tool. <i>Kirsty Stewart</i>	120 IMPACT for DDD: Family perspectives on the challenges of raising a child with developmental coordination disorder in Australia and Canada. <i>Jill Zancker</i>	184 Choosing advanced gross motor assessment for ambulant school-aged children with cerebral palsy: a systematic review and decision tree. <i>Georgina Cooterback</i>	39 Supporting play, exploration, and early development intervention (SPEED) for preterm infants: A feasibility study in an Australian context. <i>Françoise Filippson</i>	
1140 - 1150	84 Cerebral Palsy Register: a preliminary study towards developing a hospital based national surveillance mechanism for Sri Lanka. <i>Ramanija Fernando</i>	269 Objectively measuring upper limb dyskinesia in children with cerebral palsy: preliminary results. <i>Melissa Louey</i>		251 Gait of pre-school children born very preterm in a dual-task paradigm. <i>Breen Albeister</i>	197 PreEMPT: Preterm Infant Early Intervention for Movement and Participation Trial - a feasibility study in regional Australia. <i>Chelsea Mobbs</i>	
1150 - 1200	268 Nepal Cerebral Palsy Register (NCPRI): Developing a platform for National CP register and surveillance of children with CP in Nepal. <i>Israt Jahan</i>	15 The lived experience of chronic pain in children with dyskinetic cerebral palsy from the perspective of carers. <i>Clare McKinnon</i>		77 The impact of body mass index on the mobility, spatiotemporal and kinematic aspects of gait in children with cerebral palsy. <i>Anita Mudge</i>	92 Efficacy of parent-implemented early interventions in low-and-middle-income countries for children with CP to improve parent mental health: Systematic review. <i>Natoya Branyerjapan</i>	
1200 - 1210	173 Comparing cerebral palsy rates and clinical outcomes of twins and higher order multiples: a Europe-Australia collaboration. <i>Shona Goldsmith</i>	85 Pain prevalence and characteristics in children with cerebral palsy and dyskinesia. <i>Clare McKinnon</i>				
<b>1210 - 1320 Lunch - AGM</b>						
<b>1320 - 1400 Plenary Session 5</b> <b>CHANGEMAKERS: Visionary Leadership in Disability</b> <i>Graeme Innes, Chair, Alliance Foundation Former Commissioner at the Australian Human Rights Commission</i>						
<b>1400 - 1500 PhD Platforms</b> <i>Dr Cathryn Crowle - Use of the General Movements Assessment with Infants Following Surgery in the Neonatal Period</i> <i>Dr David Hobbs - Can a Novel 'Serious Gaming' Technology Improve Upper Limb Sensation and Function in Children with Cerebral Palsy? A Population-based Cohort Study and Pilot Randomised Controlled Trial</i>						
<b>1500 - 1530 Afternoon Tea + Poster Session</b>						
1530 - 1700	<b>Workshop 8: Let's Ride! Enabling Cycling Across the Spectrum of Cerebral Palsy</b> <i>Rachel Toovey, Ellen Armstrong</i>	<b>Workshop 9: 2D4ME: Video Gait Assessment and Interpretation</b> <i>Pam Thomson, Tandy Hastings-Iron, Jesse Mackay, Annette O'Connell, Jessica Pasco</i>	<b>Workshop 10: Clear as Mud Improving Motor Type Classification in Cerebral Palsy.</b> <i>Kirsty Stewart, James Rice, Adrienne Harvey, Sarah Love, Sarah McIntyre</i>	<b>Workshop 11: Participation: Applications of the Family of Participation Related Constructs (FPKC) Framework for Developmental Motor Disorders</b> <i>Peter Wilson, Bert Steenbergen, Andrew Gordon, Christine Imms</i>	<b>Workshop 12: Profession-led Guideline for the Prevention and Treatment of Respiratory Illness in Children with Cerebral Palsy</b> <i>Noula Gibson, Monica Cooper, Katherine Langdon, Lisa Moshovis, Rachel Marpaie</i>	<b>Workshop 13: Stem Cell Therapies for Cerebral Palsy: The What and How of Handling Difficult Questions</b> <i>Madison Paton, Megan Finch-Edmondson, Michael Fahey, Iana Novak</i>
<b>Workshop 14: Implementing the Infant Monitor of Vocal Production (IMP) for Early Surveillance of Communication Impairment in Babies at-risk of Cerebral Palsy</b> <i>Ros Ward, Robyn Cattle-Moore, Neville Hennessy, Elizabeth Barty</i>						
<b>1830 Masquerade Gala Dinner - Transformative Practice Award (tickets for purchase)</b>						

**Saturday, 14 March 2020**

0730 - 0830	<b>Breakfast 13: Advances in Clinical and Instrumental Evaluation of Oropharyngeal Dysphagia in Infants and Young Children with Cerebral Palsy</b> <i>Kelly Weir, Amanda Khamsi, Katherine Benfer</i>	<b>Breakfast 14: Single Level Selective Dorsal Rhizotomy: An Integrated Approach to Optimize Functional Potential and QoL for Children with Bilateral Cerebral Palsy</b> <i>Stephanie Cawker</i>	<b>Breakfast 15: Pearls and Pitfalls of Early Intervention for Infants with Unilateral CP</b> <i>Ros Boyd, Sue Greaves, Giovanni Goni</i>	<b>Breakfast 16: Cognitive and Psychological Phenomena Within Cerebral Palsy: Unmasking Hidden yet Profound Contributors to Quality of Life and Family Functioning Outcomes</b> <i>Jonson Moyle, Peter Clissa, Katherine Langdon, Dr. Seth Warchewsky</i>	<b>Breakfast 17: Addressing Inequities in Health Outcomes for Children with Cerebral Palsy Across the World</b> <i>Sue Woolfenden, Gulam Khondaker, Kate Milner</i>	<b>Breakfast 18: Change Makers in the Community Practice: The Process of 'Making it Happen'</b> <i>Kelly Reynolds</i>
<b>0830 - 0830 Arrival Tea &amp; Coffee</b>						
<b>0830 - 0910 Plenary Session 6</b> <i>Margaret Wallen, Senior Lecturer (Occupational Therapy), Australian Catholic University Consumer Co-investigator</i>						
<b>0910 - 0950 Plenary Session 7</b> <b>The Hammersmith Infant Neurological Examination: Prediction of Outcomes of at-risk Infants</b> <i>Dr. Domenico Romeo, Medical Director, Pediatric Neurology Unit of the Fondazione Policlinico Gemelli-IRCCS and Assistant Professor, Catholic University of Rome, Italy</i>						
<b>950 - 1020 Ask The Presidents:</b> Updates from AACPM & EACD President with Questions, Presidential Handoff, DIMCN Editor						
<b>1030 - 1050 Morning Tea</b>						
1050 - 1220	<b>Workshop 15: Supporting Lifelong Physical Activity Participation and Chronic Disease Prevention Among Individuals with Cerebral Palsy: International Perspectives.</b> <i>Mark Peterson, Jan Willem Gorter, Elisabeth Rotby Bouaquiet</i>	<b>Workshop 16: Non-invasive Brain-computer Interfaces for Access to Augmentative and Alternative Communication, Computers, and Cognitive Assessment for People with Cerebral Palsy</b> <i>Jane Huggins, Petra Karlsson</i>	<b>Workshop 17: Implementation of an Evidence-based, Distributed Model of Early Upper Limb Intervention for Infants with Unilateral Cerebral Palsy</b> <i>Brian Hoare, Emma Taylor, Susan Greaves</i>	<b>Workshop 18: Hope, Evidence or Hope a Friend: What is Most Helpful in Complex Paediatric Brain Injury Rehabilitation?</b> <i>Neil Wimalasundera, Adam Scherberg, Belinda Kinna, Al-Lynn Wong</i>	<b>Workshop 19: Single Subject Research Designs in Disability and Developmental Medicine</b> <i>Naotsho Bear, Brooke Adair, Ros Ward</i>	<b>Workshop 20: Understanding Pain in Children with Cerebral Palsy: Pain Mechanisms and Assessment Incorporating the ICF Framework</b> <i>Adrienne Harvey, Simon Paget, Nadene Smith</i>
<b>Workshop 21: What Interventions Improve Function in Cerebral Palsy? Implementation of a New Clinical Practice Guideline</b> <i>Iana Novak, Michelle Jackson, Leanne Sakzewski, Cathy Morgan, Ros Boyd</i>						
1220 - 1250	Scientific Poster and Paper Award, Research Foundation, Promising Career Awards					
<b>1250 - 1330 Plenary Session 8</b> <i>Bernard Dan, Paediatric Neurologist and Rehabilitation Physician, Université Libre de Bruxelles and Inkendaal Rehabilitation Hospital</i>						
<b>1330 Conference close</b>
