

AusACPDM Listening and Sharing session

Addressing health inequities in childhood disability

Join us in our free listening and sharing session

Wednesday 26 April, 4pm Australian EST

The aim of our AusACPDM Listening and sharing sessions are to share our experiences and learnings. This session is co-hosted by the AusACPDM Advocacy and Awards Portfolio and the Equity Statement Working Group.

Topic information: The AusACPDM is currently developing an Equity Statement to guide the Academy's efforts to achieve health equity, and to become an equitable, diverse and inclusive organisation. Facilitators will seek input from the audience about what equity means to them, and what principles should underpin our efforts. Speakers will then share insights from EPIC-CP, a NSW-based research project that aims to address health inequities in children with CP through a co-designed integrated pathway to help clinicians link families to the social care services they need

Speakers: A/Prof Sue Woolfenden, University of New South Wales / Sydney Local Health District
Dr Katarina Ostoic, University of New South Wales

The session will be facilitated by: Amy Hogan, CP Society of New Zealand and Dr Rachel Toovey, The University of Melbourne
