

# AusACPDM Listening and Sharing session

## Dipping your toes into research

Join us in our free listening and sharing session

27<sup>th</sup> February  
4.30pm (AEST), 5.30pm (AEDT)

This interactive AusACPDM Listening and Sharing session will be about what it's like to dip your toes into research, without immediately making the jump to a formal research degree like a PhD. We will hear from four clinicians who have all engaged in research recently via different avenues. This session will include a discussion on how to find opportunities to get involved in research, and what it's like to be involved in research while working clinically. We will also explore the opportunities that exist after you get that first taste of research.

This session will be of interest to clinicians, students and people with lived experience who are interested in being involved in research, or researchers who would like to partner with these people.

**Presenters include:** *Karen Graham, Ishani Perera, Joseph Vida & Lizzy Barnes Keoghan*

**The session will be facilitated by:** *Dr Georgina Clutterbuck*
