

Help us to improve access to powered mobility for young children by filling out this survey!

# ARE YOU AN OCCUPATIONAL THERAPIST OR PHYSIOTHERAPIST WORKING WITH CHILDREN AGED UNDER 9 YEARS WITH MOBILITY CHALLENGES?

**SURVEY: WHAT ARE THE CURRENT APPROACHES OF AUSTRALIAN PHYSIOTHERAPISTS AND OCCUPATIONAL THERAPISTS IN PRESCRIBING POWERED MOBILITY TO YOUNG CHILDREN?**

You are invited to participate in a research study exploring the practices of healthcare professionals in prescribing powered mobility devices for children under 9 years with mobility challenges. The information you provide in this survey will help guide future research and inform practices in this area.

- How do you approach prescription of early mobility equipment, and what age you think children are ready to try powered mobility?
- Is it harder to access powered mobility equipment in rural and remote Australia?
